

Who We Are

Our Mission

We advance quality public education for all students by providing charter school authorizing professionals with the support, resources, and collective voice necessary to foster high-performing, fiscally sound, autonomous, and accountable charter schools.

Our Work

Support the hundreds of California school districts and county offices that authorize charter schools with a strong, collaborative network of professionals that provide expertise, high-quality resources, and support. Through our members we are committed to the implementation of best practices in charter school authorizing and oversight throughout California.

Our Focus

We are an association of charter authorizing professionals for charter authorizing professionals. Our grassroots approach and statewide network enable us to clearly understand how to best strengthen authorizing practices. We provide a collective voice for all authorizers in the field.

Our Board

Our board consists of professionals from districts and county offices throughout California with deep experience in charter authorizing and oversight. Collectively, our decades of experience include the oversight of hundreds of charter schools and encompass all aspects of charters; educational programs and student achievement, charter governance, operations and fiscal health, and public policy purposes.
